15. Supplementary Notes

This publication contains Records for municipal wastewater treatment works projects

16. Abstracts

This publication contains records for municipal wastewater treatment works projects assigned priority by the States and planned for funding by the Environmental Protection Agency (EPA) through Sept. 1977, under the authority of Title II of the Federal Water Pollution Control Act, as amended; Public Law 92-500; 33 U.S.C., 1281 (g)(1). Data is sorted first by Region then by State and status. Project Records are then listed in ascending order of the grant number. Each entry includes: grant number, step, applicant name, date application is expected/received in EPA Regional Office, project status, date project is awarded EPA funds/completed, amount requested from/awarded by EPA, and the priority rank assigned by the State.

PREFACE

This publication contains records for municipal wastewater treatment works (WWT) projects assigned priority by the States and planned for funding by the Environmental Protection Agency (EPA) through September 30, 1977, under the authority of Title II of the Federal Water Pollution Control Act, as amended; Public Law 92-500; 33 U.S.C., 1281(g)(1).

The data is sorted first by region, then by State and project status. Project records are then listed in ascending order of the grant number. Each entry includes the following information:

GRANT IDENTIFICATION NUMBER: A control number assigned to identify each prospective project, application and awarded grant. The full grant identification number is composed of 4 data elements: program code, serial number, sequence number, and amendment designator. First 2 digits identify the State, the next 4 digits identify the need and/or grant objective; following the first dash is the sequence project; following the second dash is the amendment designator which identifies the number of administrative augmentations or revisions executed on a given project.

PROJECT STEP CODE: A code identifying the specific type of project undertaken as part of a Construction Grant for Wastewater Treatment Works under P.L. 92-500:

"1" - Project for facilities plans and studies.

"2" - Project for preparation of construction drawings and specifications.

"3" - Project for building and erection of a treatment works.

"9" - Project for design and construction of a treatment works facility for training operations and maintenance personnel.

APPLICANT NAME: The legal name of the applicant.

APPLICATION EXPECTED/RECEIVED DATE: The date an application is expected to be received, or is received, in an EPA regional office.

STATUS: Identifies whether the project is:

1 - on a State approved project priority list;

2 - an unfunded application currently being reviewed by an EPA regional office;

3 - an active, funded project which is not yet complete;

4 - an unfunded application returned to the applicant for revision; (resubmittal anticipated); or

5 - a completed project.

ACTION DATE: The date of award or completion (dependent upon "status").

EPA AWARD/AMOUNT REQUEST: The actual amount of EPA dollars awarded to the applicant, or the estimate of total EPA funds requested to carry out the proposed project.

PRIORITY RANK: The priority assigned by a State to a proposed project appearing on the State Project Priority List.

Project Priority Lists were not available for inclusion in this publication for : American Samoa, Arkansas, Delaware, Guam, Kansas, Maine, New Jersey, New York, and the Trust Territory of the Pacific Islands. Addresses and telephone numbers for those respective State Water Pollution Control Agencies are provided within the appropriate regional listings as an aid for obtaining information regarding their projects.

The data contained herein should be used in conjunction with that presented in the companion publication, "Monthly Listing of Awards for Construction Grants for Wastewater Treatment Works, Public Law 92-500 Project Records," since the making of an award to a project contained on this list is reflected in the subsequent monthly issues of that publication. Both publications are prepared by the Grants Administration Division from information extracted from EPA's Grants Information and Control System (GICS), and distributed and sold as a single subscription item by the National Technical Information Services for $100 per year. All inquiries on the purchasing or distribution of this material should be directed to:
